Dear Arkansas educator:

Please read the press release below from PARCC requesting input on the DRAFT Accommodations policies.

Thank you for serving the students of Arkansas! Want to be added to the ADE CCSS ListServ? If so, please send your name, e-mail address and district name to abby.cress@arkansas.gov

PARCC Releases Draft Accommodations Policies for Public Comment

WASHINGTON - January 16, 2013 - The Partnership for Assessment of Readiness for College and Careers (PARCC) released two draft accommodations policies for public comment, the reading access accommodation and the calculator use accommodation.

In addition to allowing a full array of testing accommodations on summative tests, PARCC is proposing two accommodations that will expand access to its tests to an even wider range of students with disabilities.

First, the reading access accommodation will allow the passages, test items and answer choices on the English language arts/literacy assessment to be read to students who have a disability that prevents them from accessing printed text or has not yet learned braille. Also, the calculator policy will allow students who do not have the ability to calculate single digit numbers the use of a calculator for all items on the math assessment except those that measure fluency, as fluency is a skill required by the standards in some early grades. Both accommodations will have specific eligibility criteria and will be limited to students who meet these criteria.

Once feedback is provided on these policies, they will be included in a larger policy that details all accommodations provided to students with disabilities and English language learners.

"These policies were developed based on wide-spread input from states and experts," said Tamara Reavis, Senior Adviser for Assessment Accessibility and Equity. "Common accommodations will increase

equitable access, fidelity of implementation, and comparability across PARCC states."

The public review period allows for feedback from a wide group of stakeholders, including K-12 educators, curriculum and assessment experts, and national groups or organizations.

Trinell Bowman, who chairs the PARCC working group on Accessibility, Accommodation and Fairness, said the policies were driven by what is expected of students in the Common Core State Standards and the claims of the PARCC summative assessments.

"These eligibility criteria will require all schools to address a student's need through research based interventions and IEP goals, and these accommodations will give students a greater opportunity to show what they know and able to do on these assessments," said Bowman, Program Manager with the Maryland State Department of Education.

From January 16, 2013 until February 4, 2013, the draft accommodations policies are posted on the PARCC website.

Interested parties can provide feedback through a survey posted on the PARCC website answering questions specific to each policy.

All feedback will be reviewed by Achieve and the working group for Accessibility, Accommodation and Fairness and revisions will be made accordingly. Also, a determination to allow these accommodations and include them in the overall policy or not allow these accommodations will be made based on feedback collected.

This is the first set of accommodation policies PARCC will release for public comment. An additional policy for the writing access policy will be released for public comment in early February, 2013, and the entire PARCC accommodation policy manual will be made available for public comment in April, 2013.

About PARCC

PARCC is an alliance of states working together to develop common assessments serving nearly 25 million students.

PARCC's work is funded through a four-year, \$185 million dollar grant from the U.S. Department of Education.

Partners include over 700 higher education institutions and systems representing hundreds of campuses across the country that will help develop the high school component of the new assessment - and then put it to good use as an indicator of student readiness.

PARCC is led by its member states and managed by Achieve, a nonprofit group with a 15-year track record of working with states to improve student achievement by aligning K-12 education policies with the expectations of employers and the postsecondary community.

PARCC's ultimate goal is to make sure all students graduate from high school college- and career-ready. For more information, visit
